Developmental Medicine and Child Neurology

Volume 4 1962

INDEX

Authors and subjects of articles in the body of the Journal are indexed together. There is a separate index to subjects of articles abstracted, and another to authors of articles abstracted. Correspondence is indicated by the symbol (C).

KEY TO ISSUES AND PAGES

Issue	*Pages*	*Issue*	*Pages*
No. 1	1–116	No. 4	361–470
No. 2	117–254	No. 5	471–580
No. 3	255–360	No. 6	581–694

Abdomen, decompression, in pregnancy and labour, improved foetal oxygenation from, 473
Abnormalities, congenital, classification, 322
— — due to thalidomide, 338, 425
— — Liverpool Registry, 320
— — research on, 337
Accidents, prevention, World Health Organisation seminar, 252
Actinotherapy of tumours of central nervous system in children, 657
ADAMS, C. W. M.: Histochemical aspects of myelination and demyelination, 393
ADDIS, Robina S.: The Ingleby Report on Care of Children and Young Persons, 87
Adoption, best age for, 548
Adults, behaviour of after cerebral lesions, 3
Albinism, amino-acid metabolism in, 409
Alkaptonuria, amino-acid metabolism in, 409
ALLISON, A. W.: *A Child's Day Out*, 342
American Academy for Cerebral Palsy, election of officers, 694
Amino-acid metabolism, congenital abnormalities of, 405
β-Aminoisobutyric-aciduria, 413

ANNOTATIONS
Adoption, best age for, 548
Apgar scoring system, 196, 343 (C), 441 (C), 444 (C)
Brain, progressive degeneration, intrauterine onset, 203
Carisoprodol, 80
Children, epileptic and brain damaged, psychiatric aspects of, 430
Children in hospital with mothers, 644
Chromosomes in medicine, 433
Clinical records and research, 82, 217 (C)
Deformity in cerebral palsy, 79
Encephalopathies, acute, of early life, 428
Genetics, human, and public health, 78
Growth, hormonal control of, 77
Hip-joint, preluxation, 202
Human X chromosome, 642
Infants, newborn, carbohydrate metabolism in, 341
— — metabolic changes in, 651
— premature, prognosis in, 543, 664 (C)
Kyphoscoliosis, lungs in, 339
Limbs, manipulative ability tests of 197
Mental subnormality, prognosis, 648
Mongolism, recent work on, 198
Obstetrician's contribution to prevention of cerebral palsy, 547
Physical therapy in the management of cerebral palsy, 545
Rubella in pregnancy, 640
Thalidomide and congenital abnormalities, 338, 425
Vacuum extractor in obstetrics, 200
Wilson's disease, 646
World Commission on Vocational Rehabilitation, 432
Apgar evaluation of newborn infant, 128, 196, 343 (C), 441 (C), 444 (C)
Argininosuccinic-aciduria, metabolism, 413
Arnold-Chiari malformation, neuro-radiological appearances in, 300
Arteries, vertebral, lesions caused by birth trauma, 552

Ashwood Day School and Assessment Centre, 438
Asthma, birth-weight in children with, 595
Athetosis, carisoprodol in, 499
— Phelps' classification of, 94 (C)

Bacteraemia, persistent, due to colonisation of Spitz-Holter valves, 298
BAJDA, Lenore J. *See* CHANDLER, Caroline A., 380
BAKER, L. D.: Phelps' classification of athetosis, 94 (C)
BARNES, R. B.: Enuresis in residential schools for backward children, 439
BARRIE, H.: Apgar evaluation of the newborn infant, 128, 343 (C), 441 (C)
BATTEN, Frederick Eustace, 1865-1918, two papers by. *See* SUPPLEMENTS
BAYLISS, S. G., and GILBERTSON, Moyna P.: Controlled trail of chlordiazepoxide in spastic children, 597
Behaviour, effect of drugs on, 50
— in children and adults after cerebral lesions, 3
— of children with choreiform movements, 122
— spontaneous feeding, clinical significance of, 165
BENKO, J.: Intracranial expanding lesions in the newborn and early infancy, 659
— *See* PEKAROVIČ, E., 658
BENSON, P. F.: Metabolic changes in the newborn, 651
BENTON, A. L.: Psychological aspects of dyslexia, 206
BEŠTECKÝ, J., CHVOJKA, Z., and MALÁ, E.: Actinotherapy of tumours of the central nervous system in children, 657
BIRCH, H. G., THOMAS, A., CHESS, S., and HERTZIG, M. E.: Individuality in the development of children, 370
Birth trauma, arterial lesions caused by, 552
Birth-weight in children with asthma and eczema, 595
Blood-transfusion, exchange, in haemolytic disease of newborn, indications, 143
BOBATH, K.: Two views on the tonic neck reflex, 220 (C)
